Professional experience

- 2024

●

Lead Frontend Software Engineer

myuser, Remote

Led CRM web app development at myuser, utilising Vue 3, TypeScript, Go, Firebase, OpenAI, and Figma. Managed project with Jira and CI/CD pipelines via Git and Github Actions.
- 2023

●

Software Engineer & Designer

Confidential client, Remote

As a full stack engineer, revamped the UI and built backend features for a web app using Next.js, TypeScript, TailwindCSS, Firebase, Stripe, Figma, and Lucidchart. Facilitated team growth, managed projects with Git and Jira.
- 2022

●

UX Engineer

Prodia, Remote

Contributed to Prodia app development, focusing on rapid iteration with CSS3, Vue 3, TypeScript. Collaborated with teams to optimize product versions.
- 2020

●

Frontend Developer & UI/UX Designer

Contract, Remote

Freelanced on diverse projects, including online platform design for Dismiss Yourself, entertainment platform reconstruction, branding for Legendary Security, and portfolio for Annabel Curphy. Utilized Vue.js, React.js, Next.js, TypeScript, Node.js, Firebase, HTML5, CSS3, TailwindCSS, Sass, GSAP, Git, Jira, and Figma.
- 2019

●

SIA Security Officer

Legendary Security, Brighton, UK

As security personnel for Legendary Security my responsibilities included safeguarding customers and staff, resolving conflicts, working within a team and maintaining composure in high-pressure situations.
